Nozzles and spare parts for  
**BOSCH® PIEZO INJECTORS**  
suitable for many European vehicles

Piezoelectric technology is the modern Common Rail diesel heart. Its innovative technology led to greater efficiency, performance and reduced emissions. The crystal component is fundamentally critical: it generates an electrical charge when a mechanical stress is applied likewise changes its shape when an electrical charge is applied as well. It acts up to 5 times faster than a standard injector solenoid and motion is frictionless. The greatest advantage of Piezo technology is fuel delivery rate and precision since the actuator can be easily activated and deactivated.

At the 2003 Frankfurt Motor Show, Siemens®, Bosch® and Delphi® all launched piezoelectric fuel injection systems. Piezo actuators appeared on Bosch's third-generation Common Rail system on Audi's new 3L V-6 TDI engine that is optional on the A8 flagship.

Check out in next pages our Piezo Common Rail products suitable for Bosch®.

## Nozzles and spare parts for **DENSO® COMMON RAIL INJECTORS AND PUMPS** suitable for many European and Japanese vehicles

In late 1995, Denso® launched its first common rail system and it continues to develop and improve it. In fact Denso® introduced in the European market in June 2002 a 1800-bar common rail system. Denso®'s Common Rail system achieved a high injection pressure and five-time multiple injections at a high accuracy. This system comfortably cleared Euro 4/5 emission regulations without a diesel particulate filter.

In Europe, many vehicles like Primera, Almera, Tino, and X-Trail of Nissan®, MPV and Mazda 6 of Mazda® and Avensis of Toyota® are equipped with this system.

In Japan and in many other countries Hilux and Prado of Toyota® and pickups DMAX and light truck ELF of Isuzu® are equipped with this system.

We produce 120 different nozzles.

Check out in next pages our Common Rail products suitable for Denso®.

TOOLS

**PRODUCT UPDATE – March 2009 (last update 26.06.2020)**

## Nozzles and spare parts for BOSCH® COMMON RAIL INJECTORS AND PUMPS for traditional and multijet systems

We actually have in our line **more than 100 nozzles** suitable for **Bosch® Common Rail systems** and we are now ready to offer also a wide range of spare parts for repairing injectors. **Common Rail is the present and the future** and will also break through in the emerging markets in Asia as a result of increasingly strict emissions standards. Modern Common Rail diesel engines use up to 30 per cent less fuel while emitting up to 25 per cent less carbon dioxide (CO<sub>2</sub>).

Check out in next pages our Common Rail products.

## INJECTORS SPARE PARTS

Common Rail Injector Parts Set	Seven Code	Description
	17000	with Bakelite Washer + Washer + O-ring + Iron washer + Valve ball (F00VC05001)
	17002	with Bakelite Washer + Washer + O-ring + Iron washer + Valve ball (F00VC05006)
	17004	with Bakelite Washer + Washer + O-ring + Iron washer + Valve ball (F00VC05008)

Valve Ball	Seven Code	Description
	17010	Steel - ø 1,34 mm - 50 pcs. Suitable for F00VC05001
	17011	Ceramic - ø 1,34 mm - 50 pcs. Suitable for F00VC05002
	17012	Ceramic - ø 1,50 mm - 50 pcs. Suitable for F00VC05006
	17014	Ceramic - ø 1,34 mm - 50 pcs. Suitable for F00VC05008
	17015	Ceramic - ø 1,50 mm - 50 pcs. Suitable for F00VC05009
	17016	Steel - ø 1,50 mm - 50 pcs. Suitable for F00VC05010

Note: F00VC05002 = F00VC05008 and F00VC05006 = F00VC05009

## CALIBRATION SHIMS AND WASHERS

Description			Seven Code
	<b>Base washer</b>	Total pcs. 1032 - Total items 15 (2 items are the leak off connectors 17036 and 17038)	<b>17050</b>
	<b>Shim adjustment</b>	Set $\varnothing$ 5,43 mm - Hole $\varnothing$ 3,40 mm - Total items 240 pcs. - 24 shims size from 1,20 to 1,70 (cut 0,02)	<b>17060</b>
	<b>Solenoid shim</b>	<b>Type 1:</b> Set $\varnothing$ 23,50 mm - Hole $\varnothing$ 19,00 mm - Total items 110 pcs. - 11 shims size from 1,00 to 1,10 mm (cut 0,01)	<b>17070</b>
		<b>Type 2:</b> Set $\varnothing$ 22,00 mm - Hole $\varnothing$ 19,00 mm - Total items 110 pcs. - 11 shims size from 1,00 to 1,10 mm (cut 0,01)	<b>17071</b>
<b>Type 3:</b> Set $\varnothing$ 15,70 mm - Hole $\varnothing$ 10,50 mm - Total items 110 pcs. - 11 shims size from 1,20 to 1,30 mm		<b>17072</b>	

Applications: Mercedes Sprinter, Citroen/Peugeot Hdi, FIAT Ulysse/Marea/Isuzu/VM, Ford Focus, Renault Dci/Peugeot Hdi, BMW/FIAT/SAAB 9.3, Renault Scenic, Iveco Eurocargo Tector, BMW 3.0d, Mazda 6, Citroen/Peugeot Hdi 1.4.

## Nozzles and spares for PIEZO COMMON RAIL INJECTORS AND PUMPS suitable for Continental® system (ex Siemens VDO®)

The worldwide first high-pressure diesel injection system with Piezo injectors was the forerunner Continental® Common Rail Diesel System.

The Piezo Common Rail direct injection system, the first of its kind in the automotive industry, takes common rail technology a step further by advancing the efficiency and power of diesel engines. In 2007 Continental® bought Siemens® VDO Automotive AG becoming one of the top 5 companies in the automotive industry.

These systems are very popular on Citroën®, Ford®, Jaguar®, Land Rover®, Mazda®, Nissan®, Opel®, Peugeot®, Renault®, Suzuki®, Toyota®, Volvo®.

Check out our parts for these injectors and pumps

## PUMPS SPARE PARTS

For  
Common  
Rail

Nozzles and spare parts for  
**DELPHI® COMMON RAIL INJECTORS AND PUMPS**  
Suitable for Renault®, Mercedes®, Ford® and Kia® vehicles

Since the first **Delphi®**-equipped Common Rail vehicle was launched in 2001, demand for these high-pressure direct injection vehicles has continued to expand. There are over 5 million Delphi® Common Rail-equipped vehicles currently on the roads. Delphi® supply the world's largest vehicle manufacturers, including Dacia®, Ford®, Hyundai®, Kia®, Mercedes-Benz® and Renault®.

Check out in next page our Common Rail products.

## Nozzles and spare parts for CATERPILLAR® COMMON RAIL INJECTORS suitable for Perkins® and Mitsubishi® applications

Caterpillar® also developed a Common Rail system capable of multiple injection.

Multiple injection allows optimal combustion and low emissions at all loads.

Caterpillar® CR fuel system is the most effective technology to match emission regulations. The main components are a high pressure (HP) pump, rail, injector and electronics. Caterpillar® C4.4 and C6.6 ACERT Industrial Diesel Engines offer the perfect balance between durability, fuel efficiency and low emissions. These engines use Common Rail fuel systems and advanced control systems to deliver maximum uptime in the harshest environment. Applications powered by C4.4 and C6.6 ACERT engines include: Agriculture, Tractors, Aircraft Ground Support, Grinders, Harvesters, Compactors/Rollers, Compressors, Construction, Cranes, Forestry, Forklifts, General Industrial, Irrigation Equipment, Loaders, Mining.

Perkins® is using this system on its 1100 Series.

Check out in next pages our products suitable for Caterpillar®

## Nozzles and spare parts for Unit Injectors UIS/UPS suitable for Bosch® systems

The **Unit Injector System** (UIS or PDE), also known as the pump-nozzle system, is a diesel injection system developed in 1994 by Bosch®, combining the injection pump and the injector nozzle in a single component. The **Unit Pump System** (UPS or PLD) was introduced in 1995, the feature of the UPS is that each engine cylinder has a unit pump of its own.

These systems are very popular on Audi®, Ford®, Iveco®, Mercedes®, Scania®, Seat®, Skoda®, Volvo® and Volkswagen®.

Check out our parts for Unit Injectors and Unit Pumps.

**PRODUCT UPDATE – February 2010 (last update 06.08.2020)**

Nozzles and spare parts for  
**ELECTRONIC UNIT INJECTORS EUI**  
and **SMART INJECTORS**  
Suitable for Delphi® systems

The **Electronic Unit Injector (EUI)** system was developed by Delphi® in the 1990s, for use in large diesel engines, to meet the challenge posed by increasingly stringent emissions legislation. The Delphi® Diesel Electronic Unit Injectors are suitable for nine to 16 liter heavy duty diesel engines used for on- and off-highway applications. This system is very popular on John Deere®, Hyundai®, Land Rover®, Renault® and Volvo® vehicles. The **Smart Injectors** for medium and heavy duty diesel engines are a high pressure, electronically controlled diesel fuel injectors that are designed to be combined with Electric Unit Pump to provide high pressure delivery for “cam in block” engines or engines with separate cam boxes. Smart Injector system is fitted to a wide range of DAF® (MX and PR), Paccar® and Yuchai® applications.

Check out our parts for Electronic Unit Injectors and Smart Injectors.

## Nozzles and spare parts for HYDRAULIC ELECTRONIC UNIT INJECTORS HEUI Suitable for CAT® C7/9/10/11/12/13/15/18/32 engines

The hydraulically actuated electronic unit injector was developed by Caterpillar® in the early 1990's. HEUI system uses the Electronic Control Module (ECM) in order to guarantee a total electronic control of the fuel delivery, optimizing the engine performance. One of the major benefits of the HEUI injection system was the engine control, as the characteristics of injection events can be controlled independently of any mechanical system. The results were cleaner emissions and greater economy fuel potential.

These systems are very popular on CAT®, Perkins® and John Deere® vehicles.

Check out our parts for CAT® HEUI Injectors.

Nozzles and spare parts for  
**CUMMINS® CELECT INJECTORS**  
 Suitable for L10, N14, M11 and ISM engines

With more than 80 years of experience in Fuel Systems business, Cummins® is a symbol of efficiency, fuel economy and engine capabilities, while remaining compliant with increasingly strict emission standards. Cummins® advanced Fuel Systems line includes the CELECT (Cummins® Electronic Engine Control) Fuel System.

Released in 1990, it is Cummins® first electronically controlled unit injection system. The CELECT System is a cam driven system that provides high injection pressure and is used on Cummins L10, N14, M11 and ISM engine platforms.

Check out our parts for Cummins® Celect Injectors.

## Nozzles and spare parts for **CUMMINS® ISX/QSX INJECTORS** suitable for Cummins® and Scania® HPI applications

The **Cummins® ISX** is an inline (Straight)-6 diesel engine produced by Cummins for heavy duty trucks and motorcoaches, replacing N14 in 2001 when gaseous emission regulations by EPA made the engine obsolete. ISX uses "Interact System" (abbr. "IS") to further improve the engine. This engine is widely used in highway and vocational trucks and is available in power ranging from 430 hp to 620 hp. QSX is the off-highway version of ISX and Q stands for Quantum. QSX is used for industrial, marine, oil & gas and other off-highway applications. The injection system is known as HPI (High Pressure Injection) in which the injectors are cam-actuated to create injection pressure.

ISX engines are used on Autocar, Freightliner, International (Navistar), Kenworth, Oshkosh, Peterbilt, Pierce, Roadmaster, Spartan, Van Hool, Volvo and Western Star.

## INJECTOR SPARE PARTS

**PRODUCT UPDATE - October 2020 (last update 06.10.2020)****NAVISTAR**

## Nozzles and spare parts for HEUI® POWER STROKE® INJECTORS suitable for Ford 7.3L and International/Navistar injectors

Power Stroke is a name used by a family of Diesel engines for trucks produced by Ford Motor Company® since 1994. Along with its use in the Ford F-Series (including the Ford Super Duty trucks), applications include the Ford E-Series, Ford Excursion, and Ford LCF commercial trucks. The letter codes for Ford engines are:  
AA, AB, AC, AD, AE and AF.

Navistar® DT engines are used primarily in medium-duty truck and bus applications such as school buses, although some versions have been developed for heavy-duty regional-haul and severe-service applications. Navistar® DT 466E was introduced in 1994, added electronic control to previous, non-electronic DT 466. Also changed over from mechanical fuel injection to Electro-Hydraulic Unit Injection (HEUI). The letter codes for Navistar are BA, BB, BC, BE, BF, BG, BI, BJ, BN and BP. Perkins N1300 and Detroit Diesel 7,6L 40E/8, 7L 40E applications are also fitted with this system.

Check out our components for Power Stroke, HEUI injectors

INJECTORS SPARE PARTS

**PRODUCT UPDATE - September 2016 (last update 26.10.2016)**

# NAVISTAR G2.8/G2.9

## Nozzles and spare parts for NAVISTAR® G2.8 AND G2.9 INJECTORS suitable for DT, HT, VT and MaxxForce® engines

The **Navistar® DT** engine family is a line of mid-range inline-6 diesel engines. With horsepower ratings ranging from 170 hp to 350 hp, the Navistar DT engines are primarily used primarily in medium-duty truck and bus applications, although some versions have been developed for heavy-duty regional-haul and severe-service applications. The Navistar DT engines are currently available in three configurations: **MaxxForce DT 7.6L (466)**, **MaxxForce 9 9.3L (570)** and **MaxxForce 10** with same displacement as MaxxForce 9, with horsepower ranging from 310–350 hp. In 2007, the DT engines were updated to comply with 2007 stricter emission standards. The DT466, DT570, and HT570 engines were renamed MaxxForce DT, MaxxForce 9, and MaxxForce 10, respectively. In 2010 the DT engines were updated once again in compliance with 2010 emission standards. Fuel injector upgrades were also part of the 2010 modifications.

## Pressure regulators (DRV valve) suitable for BOSCH® COMMON RAIL PUMPS and RAIL for all main applications

We added in our line 16 pressure regulators for **Bosch® Common Rail pumps and rails**. The pressure regulator is attached to the body of the high pressure pump and rail and its function is to regulate and maintain the pressure depending on the load condition of the engine. It is controlled electronically by EDC module.

Check out in next pages our Common Rail products.

It's now possible to pay via  
**CREDIT CARD and PAYPAL**  
 Easy, fast, safe!

As of September 2012 we accept credit card payments. It is easy, fast and we grant the highest security standards. All you need to do is send us the following information: type of card (we accept: VISA, AMEX, MAESTRO, MASTER CARD, DINERS), card holder name, card holder I.D. copy, credit card number, expiry date, CVV number (as shown in the picture). Please provide your credit card data per FAX or PHONE. For

security reasons, we recommend that you do NOT email your credit card data.

As for September 2015 we accept also online payment via PayPal.

Any further information you might require, just please feel free to ask.

We present  
**OUR ENVIRONMENTALLY FRIENDLY PACKING  
 AND OUR ANTI-COUNTERFEITING SYSTEM**  
 for all our products

All our new packing are completely recyclable. We are also introducing a new label manufactured with 100% recovered fibres. This paper has been awarded the NAPM and Blue Angel recycled mark, because it is chlorine free and made without harmful chemical.

Some Chinese companies are selling low quality products and passing them off as Seven Diesel parts. We know who they are and we will do all we can to stop the selling of our counterfeited products. The Seven Diesel brand is recognised in the World as a quality alternative to the genuine parts; they are trying to make profit from our brand and we can not accept that. We **registered** our **trademarks**, Seven® and the Seven logo®, **worldwide** and they may not be used without our written permission. **Any illegal use will be prosecuted**

**BEWARE OF IMITATIONS!** We studied a triple security system to avoid counterfeited products, the new packaging include 3 verification methods: the hologram, the "Genuine Seven" logo and a Secure Code. The hologram is used to seal the boxes. In case of removal, the word "VOID" remains on the box and the label cannot be used anymore. On the front label the word "SEVEN" is printed with a security ink which creates a light polarisation effect that can be seen through a special double filter. At the end we added a 11-digit alphanumeric Secure Code below the Part Number on the front label. Introducing the code from the packaging in the specific field in the homepage of our website ( [www.sevendiesel.it](http://www.sevendiesel.it) ), it is possible to find out if your product is an authentic Seven Diesel product.

## GENUINE SEVEN

**GENUINE  
SEVEN**

Security ink with polarisation effect visible with special filter.

## HOLOGRAM

### WITH "VOID" RELEASE

VOID pattern is revealed on the label permanently if the label is tampered with and removed.

It is impossible to reuse the label once the VOID pattern is revealed.

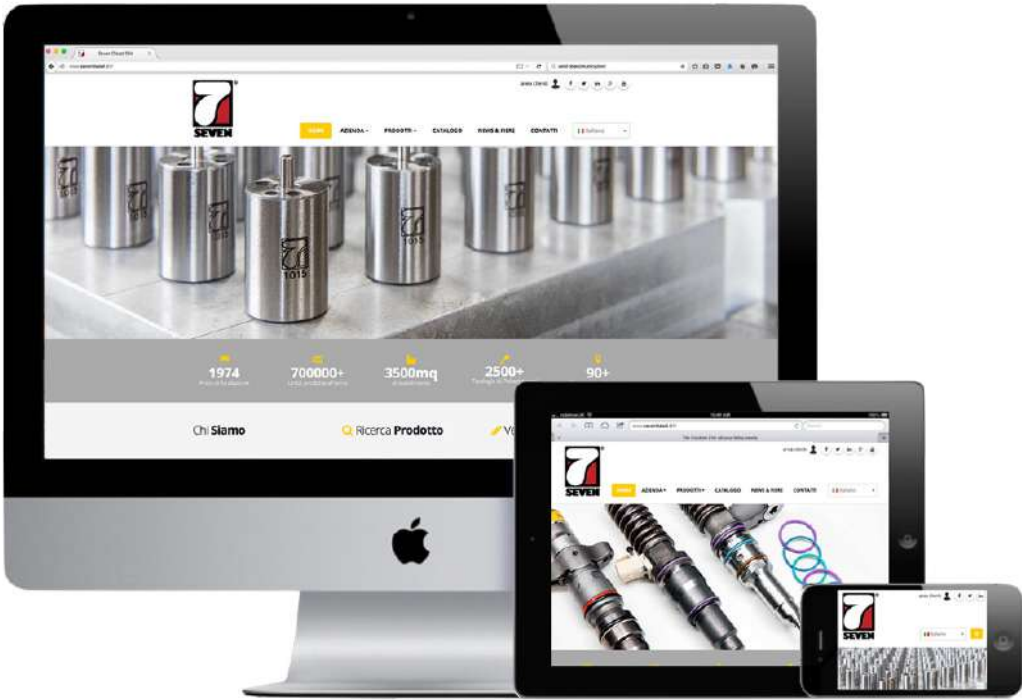

## SECURE CODE

Verify how many times the alphanumeric number has been checked.

If it is a high number, it is possible that the product is not the original one.

Our new website is online!  
**NEW LIFE FOR SEVENDIESEL.IT**  
 New features available!

Complete online new database with pictures for an easy search of our products!

Brand new page for Seven catalogues with all our updated publications!
